

MENOBAMOOZHEWAAD

Those who care for children well.

INDIGENOUS EARLY CHILDHOOD EDUCATION ONE-YEAR CERTIFICATE

Our Early Childhood Education Indigenous Certificate at Leech Lake Tribal College combines a foundation of principles of child development with Indigenous focused coursework creating a pathway for students to prepare students to provide Anishinaabe culturally informed care that will be beneficial for all children and families.

This certificate serves as a licensing credential for employment in early childhood settings, much like a Child Development Associate. Students completing the Indigenous Early Childhood Credential will be prepared with early childhood foundational courses, Ojibwe language and courses supporting Anishinaabe worldview and values. Our program provides each student with an opportunity to customize their educational background to fit their current needs and to further their education to an Advanced Indigenous Early Childhood Certificate or an Associate in Arts Degree.

Advancement Opportunity:

Students completing the certificate program will have an opportunity to continue their course work at LLTC towards an Advanced Indigenous Early Childhood Certificate or an Associate in Arts Degree.

Graduates will be able to:

- Identify how young children learn and develop.
- Recognize the History of Leech Lake and an Indigenous relationship to land.
- Read, write, understand, and speak basic Ojibwemowin.

Early Childhood Education careers may include:

- Childcare Center Director
- Family Childcare Provider
- Camp Counselor
- Paraprofessional Education
- Childcare Teacher
- Head Start Teacher
- School Age Child Care
- Classroom Assistant
