

GENAWENDAMOWAAD INAAKONIGEWIN

The ones who take care of the laws.

LAW ENFORCEMENT ASSOCIATE OF APPLIED SCIENCE DEGREE

The Law Enforcement Associate in Applied Science degree is part of the Professional Peace Officer Education Program requirement for the Minnesota Peace Officer licensing standards. All course work is certified by the Minnesota Board of Peace Officer Standards and Training (POST) and meets the mandated learning objectives.

LLTC provides the mandated *education* for this degree. The mandated *skills training* is presently provided by Hibbing Community College. These programs together meet and surpass the Minnesota requirements to be a licensed police officer.

Upon entrance and registration for the Law Enforcement program, all students are required to complete a criminal background check with the State of Minnesota. If a student's criminal background check puts him/her at risk of being ineligible for POST certification, that student will be informed of such by the Law Enforcement Program Coordinator. If necessary, other program options will be recommended.

Program Learning Outcomes

Graduates will be able to:

- Recognize the complexity of the criminal justice system and the role of the peace officer system within the system.
- Apply Minnesota statutes, Bill of Rights and lawful procedures, along with Minnesota traffic laws, as needed to make lawful warrantless and warranted arrests.
- Demonstrate Knowledge of the juvenile justice laws and procedures.
- Discuss the requirement to sit for the Minnesota POST exam.
- Recognize the complex relationship of multiple jurisdictions on tribal lands.

The skills courses are offered through Hibbing Community College and are NOT part of the A.A.S. Degree. They are required to satisfy the Minnesota P.O.S.T. learning objectives to qualify to take the Minnesota Peace Officers Exam. Please see the Minnesota P.O.S.T. web site for complete information concerning peace officer standards and training.

Other Requirement include: having a First Responders Certification, MMPI Psychological exam, a physical exam (on your own), and a valid driver's license to attend the skills training.

Law Enforcement 2023-2025 Program of Study
